

Tube Geberit Silent-PP avec manchon

Exemple d'image

Utilisation

- Pour l'évacuation d'eaux usées à l'intérieur de bâtiments
- Pour les installations d'aspiration centralisée dans des maisons individuelles, utiliser exclusivement les dimensions DN 40–50
- Pour les conduites sous pression d'installations de levage d'eaux usées conformément aux normes EN 12050-2 et EN 12050-3, utiliser exclusivement les dimensions DN 32–50

Caractéristiques

- Optimisé contre le bruit

- Tube 3 couches
- Tube intérieur blanc
- Joint en EPDM
- Convient pour deux ans de stockage extérieur

Caractéristiques techniques

| | |
|----------------------------|---------------------|
| Température d'installation | -10 – +40 °C |
| Matériau | PP-C / PP-MD / PP-C |
| Dilatation thermique | 0.08 mm/(m·K) |
